CORE BUSINESSES

INDUSTRIAL PRODUCTION

ELECTRICAL EQUIPMENT

Comprehensive product portfolio across the electrical industry value chain with leading brands such as **CADIVI, THIBIDI, EMIC, MEE POWER,** widely present in national key projects and the residential market.

CONSTRUCTION MATERIALS

VIGLACERA develops a diversified green building materials ecosystem manufactured on advanced and environmentally friendly technology platforms.

REAL ESTATE

INDUSTRIAL PARKS

Developing green and smart industrial parks to attract high-quality FDI inflows, while cooperating with strategic partner Frasers Property to provide ready-built factories and warehouses meeting international green standards.

REAL ESTATE

Collaborating with strategic partners to develop projects in CBD/TOD areas. Meanwhile, VIGLACERA focuses on social housing and mid-end projects.

INFRASTRUCTURE

GELEX provides **utility infrastructure** solutions with a focus on green energy and clean water through investments in renewable energy projects and advanced water treatment plants, aiming toward sustainable development and improved quality of life for the community.

Participating in the development of **national strategic infrastructure** projects, including transportation, urban development, energy and telecommunications.

FINANCE

GELEX has invested in Eximbank and is currently the bank's largest shareholder.

Going forward, the Group will continue seeking new financial investment opportunities, particularly projects with breakthrough mechanisms and policies aligned with Government orientations.

Q3/2026 BUSINESS PERFORMANCE OVERVIEW

GELEX maintains growth momentum amidst a volatile macro environment

Q3/2026 results

In Q3/2026, consolidated net revenue reached **VND 13,957 bn**, up **41.8%** YoY; gross profit reached **VND 2,778 bn**, up **51.6%** YoY.
Profit before tax reached **VND 1,316 bn**, up only **5.0%** YoY due to rising in financial expenses during the investment expansion phase.

Revenue growth drivers

Revenue growth came mainly from **Electrical Equipment** (**+53.7%** YoY) and **Industrial Parks & Real Estate** (**+79.9%** YoY); Construction Materials grew **8.5%** YoY, while Utilities declined **3.1%** YoY.

9M cumulative

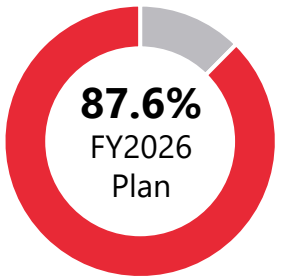

In 9M/2026, consolidated net revenue reached **VND 39,158 bn** (**+40.5%** YoY) and profit before tax reached **VND 3,931 bn** (**+14.2%** YoY), achieving **87.6%** of the revenue plan and **108.7%** of the 2026 profit before tax plan, respectively.

MACRO OVERVIEW

MACROECONOMIC OVERVIEW Q3/2026

Vietnam's economy accelerated in Q3, with 9M GDP up 9.01%; inflationary pressures increased but remained under control.

World Economy:

The global economy maintained growth momentum in Q3 but faced rising inflation and geopolitical risks.

According to the IMF, global GDP is forecast to grow **3.1%** in 2026, while inflation is projected at **4.7%**.

Risks: (i) Middle East conflict and energy supply disruptions are putting pressure on production costs; (ii) trade barriers, policy uncertainty and high cost of capital.

Drivers: AI investment continues to support growth.

Vietnam's Economy:

Despite the uncertain international environment, Vietnam's economy grew strongly in **Q3**, driven by three key engines – investment, industry & exports and domestic consumption – laying the foundation for the high growth target for **2026**.

Accelerating growth: Q3 GDP grew **9.95%** YoY, 9M up **9.01%** YoY; industry & construction (+11.21%) and services (+8.69%) contributed nearly **95%** of 9M growth, with Q3 construction up **14.22%**.

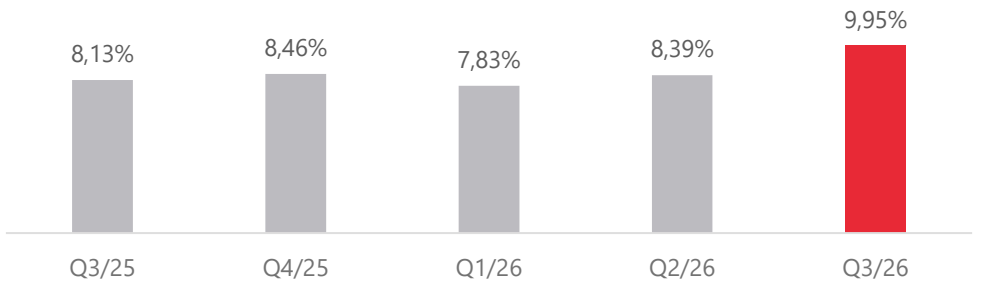

Industrial production flourishes: September IIP rose **16.7%** YoY, 9M up **12.3%**; processing and manufacturing grew **11.36%** and was the largest contributor to growth, supporting investment demand and consumption of materials and equipment.

Consumption and services remain positive: 9M final consumption rose **8.51%** YoY; total retail sales of goods and consumer service revenue reached VND 5,925.7 trillion (**+13.4%**); international arrivals reached **17.7 million** (**+14.5%**).

Investment is the main growth driver: 9M asset accumulation rose **17.88%** YoY (Q3 alone: **+21.39%**); total social investment reached VND 3,109.6 trillion (**+15.1%**); public investment disbursement accelerated and realized FDI rose **12.1%** YoY, consolidating prospects for production, infrastructure and industrial park demand.

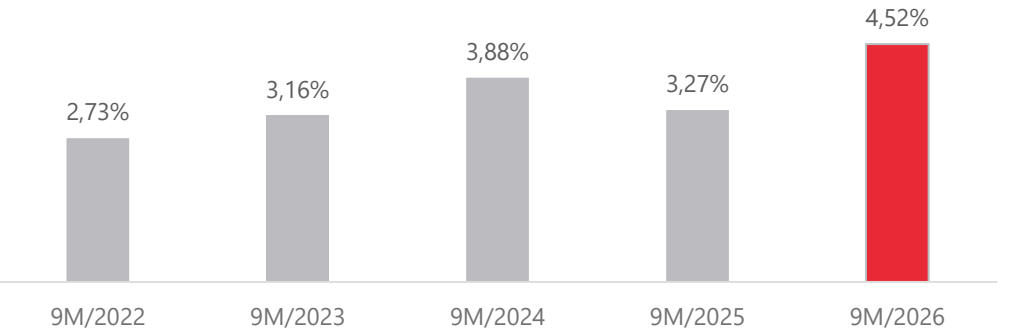

MACROECONOMIC OVERVIEW Q3/2026

GDP

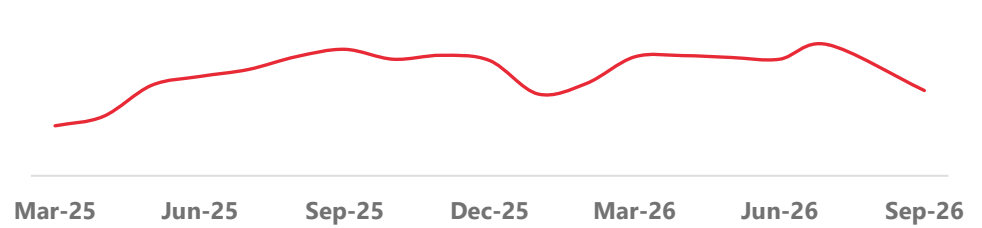

Q3 GDP grew 9.95% YoY – the highest level in the last five quarters; GDP 9M grew 9.01%, approaching the growth target.

CPI

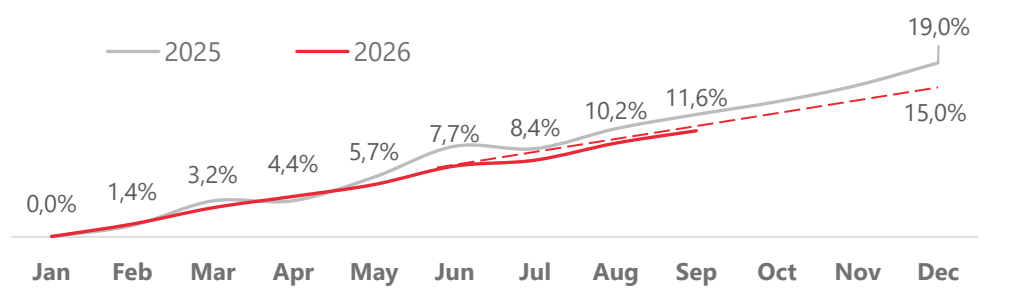

Average 9M CPI rose 4.52% YoY, with September alone up 5.08% YoY; average 9M core inflation rose 4.26%, indicating rising price pressures.

USD/VND

The USD/VND exchange rate stayed elevated in early Q3 and eased in August–September; at end-September it stood around 25,960, down about 1.3% YTD.

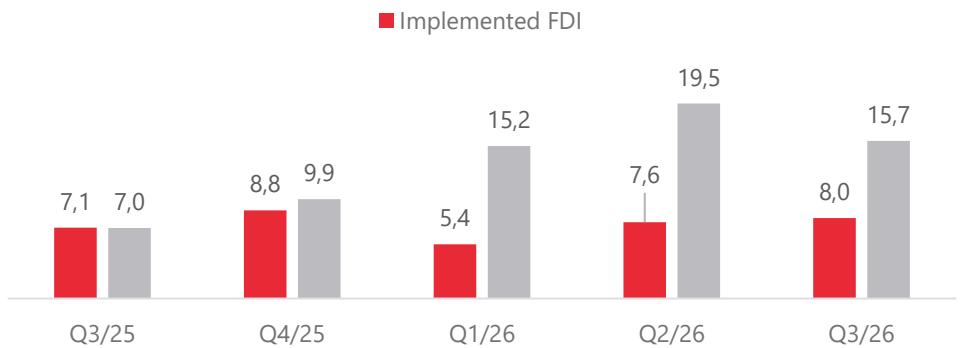

CREDIT GROWTH (%YTD)

Credit growth accelerated in Q3: as of 30/9, credit rose 11.59% YTD (same period 2025: 13.37%) and 16.69% YoY, with outstanding loans reaching VND 20,750 trillion.

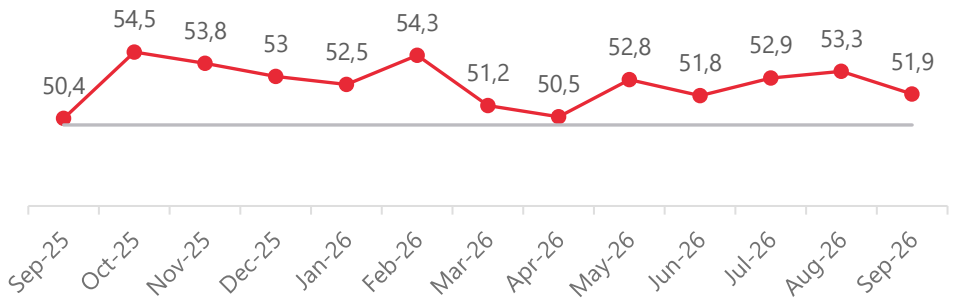

MACROECONOMIC OVERVIEW Q3/2026

FDI (USD bn)

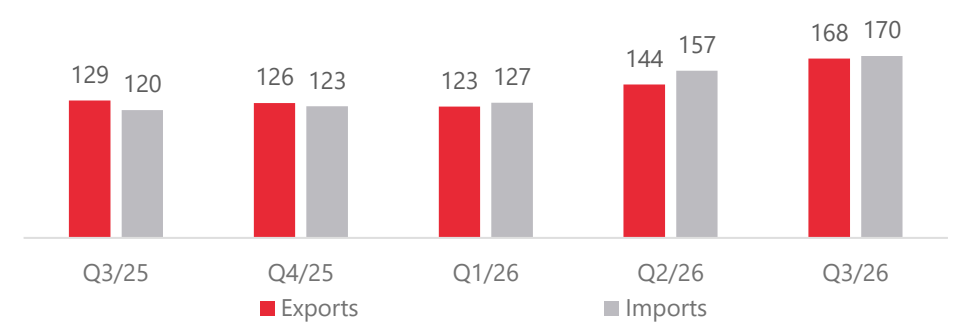

9M FDI remained positive: disbursed FDI reached USD 21.07 bn (+12.1% YoY), with Q3 alone estimated at USD 8.0 bn; 9M registered FDI reached USD 50.36 bn, up 76.4% YoY.

PMI

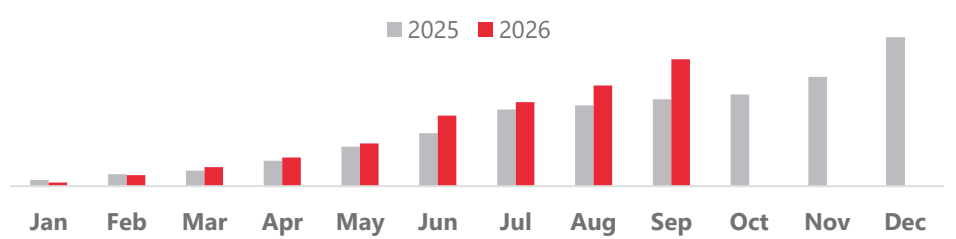

September PMI reached 51.9, above the 50-point threshold for 15 consecutive months; however, new export orders fell for a second month, signalling softer external demand.

EXPORTS & IMPORTS (USD bn)

Q3: Exports reached USD 167.9bn (+30.4% YoY); imports USD 170.3bn (+42.2% YoY). 9M trade deficit was USD 19.4bn on strong imports of production inputs; in Sep returned to USD 1.3bn surplus.

PUBLIC INVESTMENT (Trillion VND)

Public investment disbursement accelerated sharply in Q3: 9M disbursement reached nearly VND 643tn (~63% of annual plan), over VND 202tn higher than the same period last year (+46% YoY).

03

BUSINESS RESULTS Q3/2026

3.1 CONSOLIDATED BUSINESS RESULTS

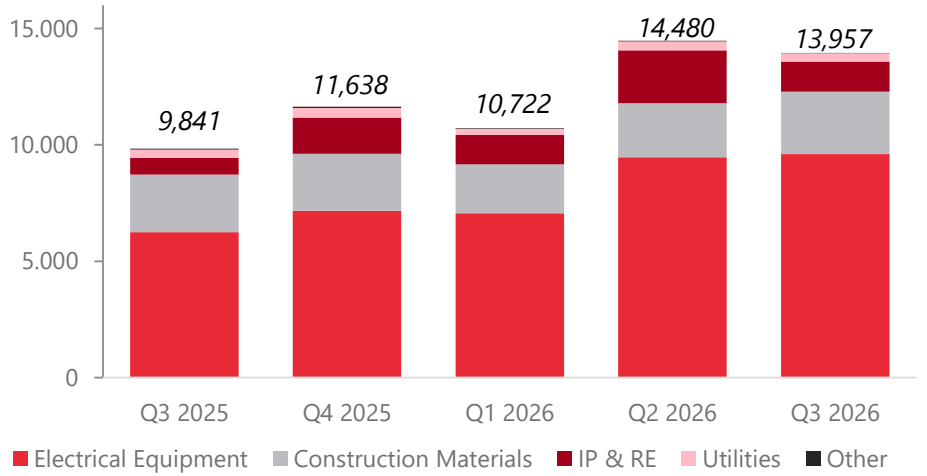

Q3 CONSOLIDATED BUSINESS PERFORMANCE

- **Q3 consolidated net revenue** reached VND 13,957 bn (+41.8% YoY), driven mainly by Electrical Equipment and IP & RE.
- **Gross profit** reached VND 2,778 bn (+51.6% YoY); **Gross margin** was 19.9%, improving from the same period last year (18.6%).
- **Q3 consolidated profit before tax** reached VND 1,316 bn (+5.0% YoY), under pressure from financial expenses, as interest expenses rose 81.9% YoY due to expanded investment in projects under the long-term strategy.

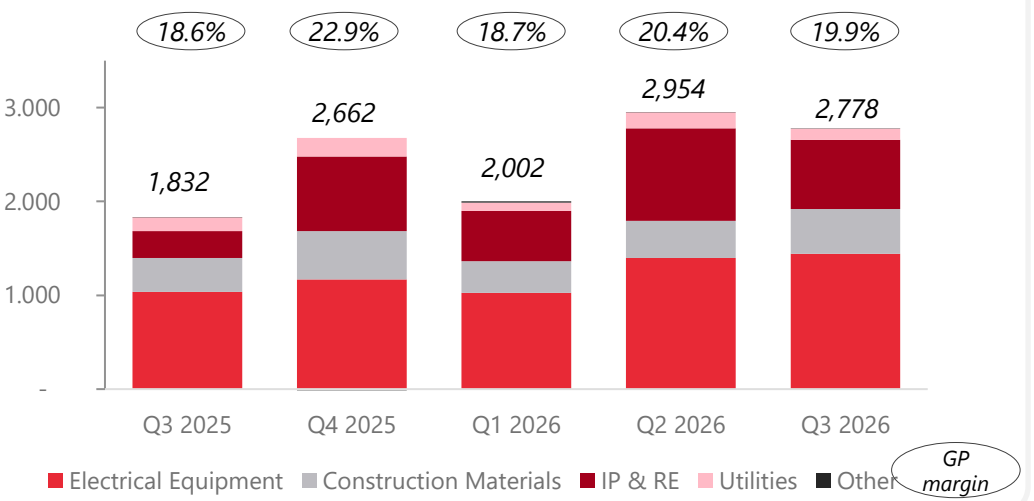

2026 PLAN

- After 9M, GELEX achieved consolidated net revenue of VND 39,158 bn and profit before tax of VND 3,931 bn, respectively achieving 87.6% and 108.7% of the 2026 full-year plans.

CONSOLIDATED NET REVENUE (bn VND)

CONSOLIDATED GROSS PROFIT (bn VND)

3.2 BUSINESS PERFORMANCE – ELECTRICAL EQUIPMENT

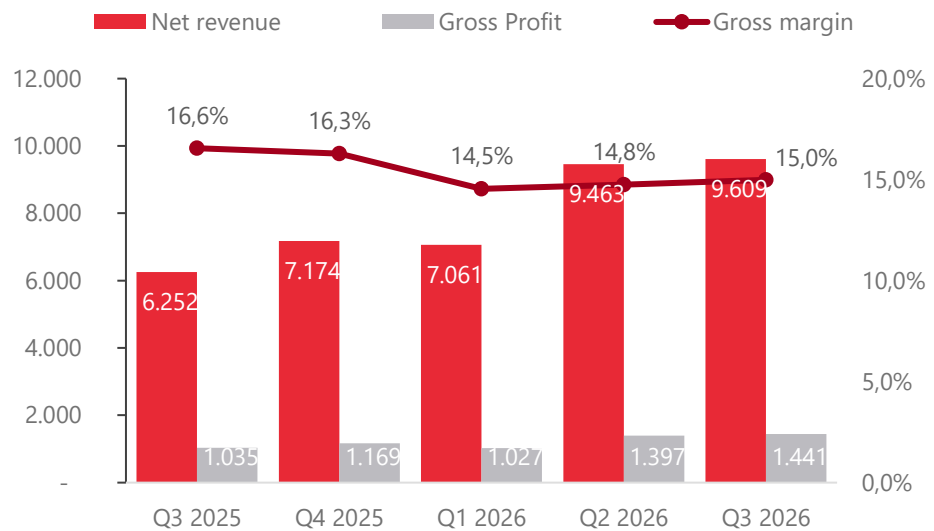

BUSINESS PERFORMANCE

- **Q3 revenue** reached VND 9,609 bn, up 53.7% YoY and 1.6% QoQ, driven by market growth on rising investment demand in infrastructure, industrial parks and real estate, along with continued market expansion efforts by subsidiaries.
- **Q3 gross margin** was 15.0%, improving from Q2 (14.8%) but below the same period last year (16.6%), as the revenue mix expanded toward lower-margin product groups.

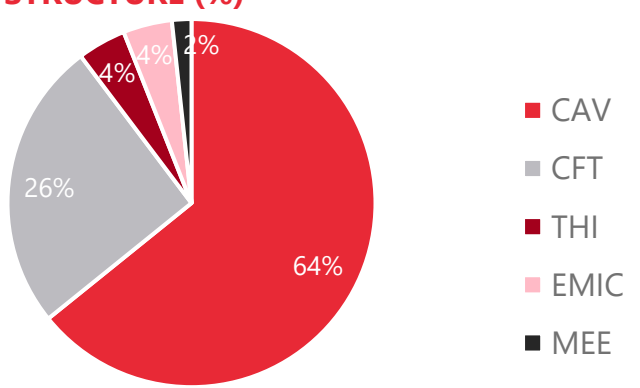

KEY HIGHLIGHTS

- **TRADE PROMOTION:**
  - THIBIDI attended the business conference Encuentro Empresarial Binacional – Visión Frontera 2026 in Colombia, aiming to access the Colombian and Latin American markets.
  - CADIVI showcased its internationally certified wire and cable products at the Vietnam ETE & Greenergy Expo 2026.
  - CADIVI opened a new business location in Khanh Hoa and held a customer conference to strengthen dealer connections, develop its distribution network and expand its brand presence in Central Vietnam.
- **PRODUCT CERTIFICATION:** CADIVI's LSHF cable line obtained TÜV Rheinland certification;
- **AWARDS:** subsidiaries continued to receive the Vietnam National Brand award (CADIVI for the 10th consecutive time, THIBIDI for the 6th and GELEX Electric for the 7th consecutive time)
- **R&D ACTIVITIES:** GELEX Electric launched a series of technology and R&D seminars, with the first session themed "Mastering Technology and Product Development" featuring expert Vo Quang Hue, who has over 40 years of experience at BMW, Bosch and Vingroup.

ELECTRICAL EQUIPMENT (VND bn)

REVENUE STRUCTURE (%)

14

3.2 BUSINESS PERFORMANCE – CONSTRUCTION MATERIALS

BUSINESS PERFORMANCE

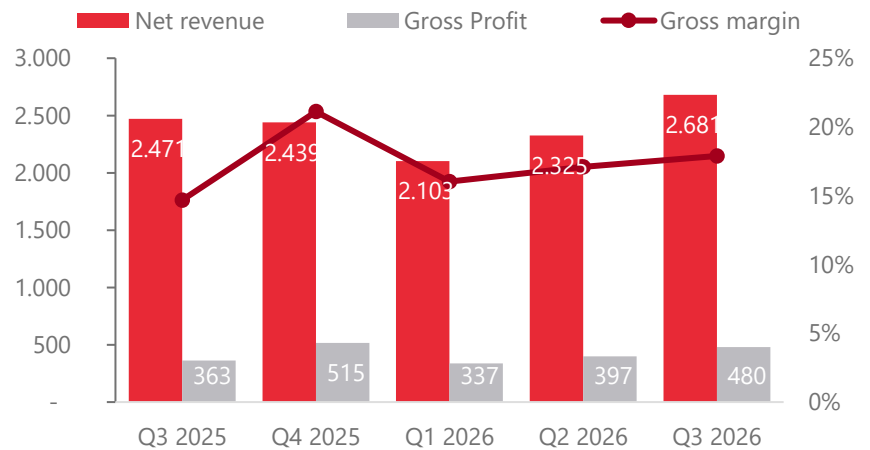

- **Q3 revenue** reached VND 2,681 bn, up 8.5% YoY and 15.3% QoQ.
- **Q3 gross margin** was 17.9%, improving from Q2 (17.1%) and the same period last year (14.7%), thanks to positive market developments, along with the benefits of restructuring and operational efficiency optimization.

KEY HIGHLIGHTS

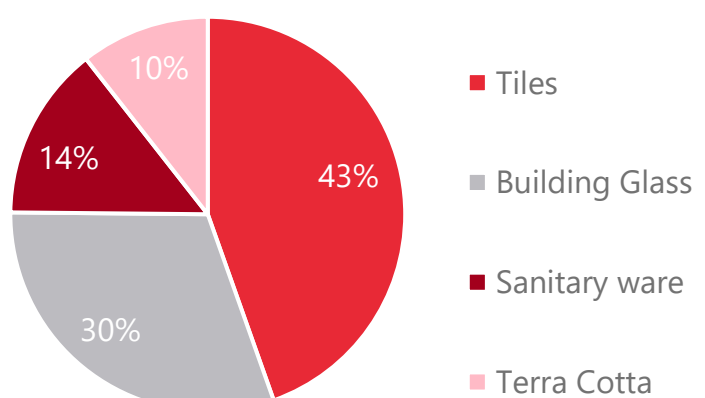

- **TRADE PROMOTION:**
  - Participated in VIBE 2026, introducing a green – smart materials ecosystem including glass, AAC blocks, tiles and sanitary ware, together with Vasta Stone and Eurotile, strengthening outreach to the architecture, interior design and construction communities.
  - Eurotile organized the TOUCH & SENSE event series in Ho Chi Minh City, Da Nang and Hanoi, launching the E-Structure and E-Lotus surface technologies and new collections.

- **PRODUCTS & TECHNOLOGY:** Introduced two surface technologies, E-Structure and E-Lotus, for Eurotile premium tiles, expanding surface finishing options for architectural spaces and enhancing aesthetic differentiation and material experience.

CONSTRUCTION MATERIALS (VND bn)

REVENUE STRUCTURE (%)

3.2 BUSINESS PERFORMANCE – UTILITIES

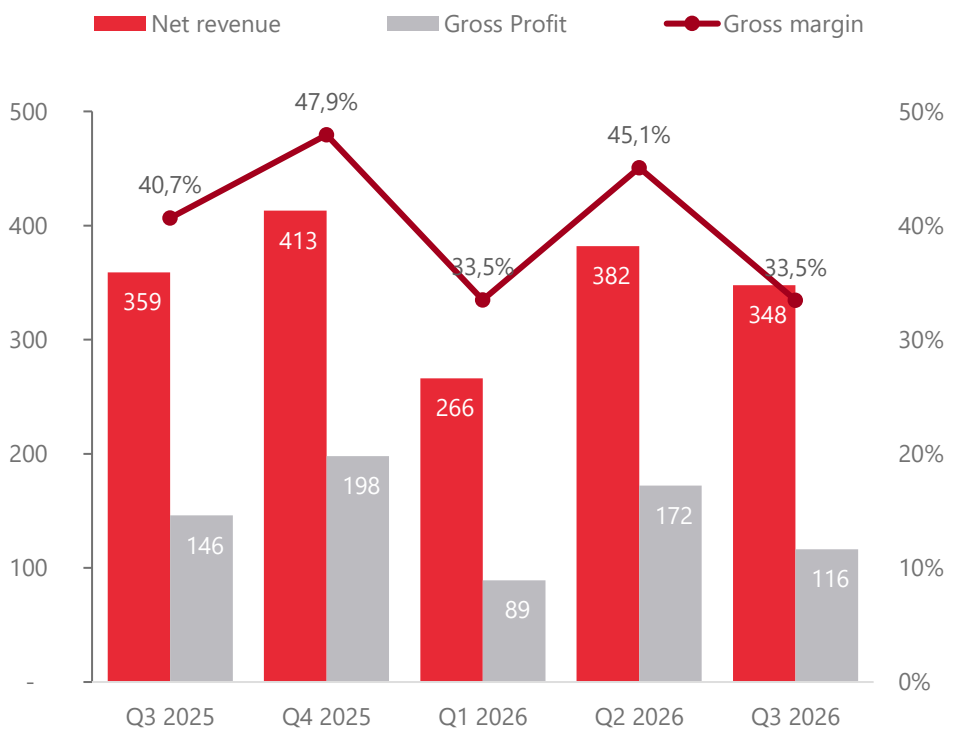

BUSINESS PERFORMANCE

- **Q3 revenue** reached VND 348 bn, down 3.1% YoY and 8.9% QoQ, as the same period last year included revenue from the 49MW hydropower project (divestment completed in Q4); clean water revenue alone grew 19.5%.
- **Q3 gross margin** was 33.5%, down from Q2 (45.1%) and the same period last year (40.7%).

KEY HIGHLIGHTS

- **Water:**
  - **Song Da Water:** Completed key Phase 2 items; studying the expansion of secondary pipelines.
  - Studying wastewater treatment projects in Ho Chi Minh City.
- **Energy:**
  - Preparing investment in the 129MW Phase 1 nearshore wind power project in Can Tho.
  - Studying and proposing other renewable energy projects.

UTILITIES (VND bn)

3.2 BUSINESS PERFORMANCE – REAL ESTATE

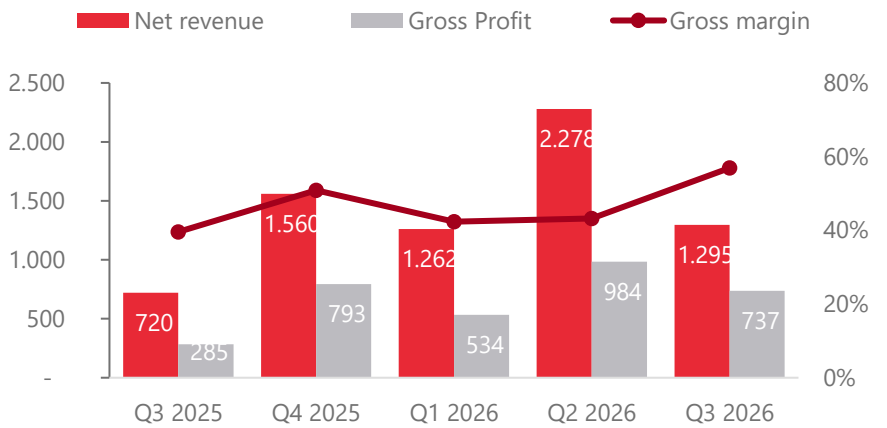

BUSINESS PERFORMANCE

- **Q3 revenue** reached VND 1,295 bn, of which IP contributed VND 1,149 bn (+86.5% YoY) and RE VND 146 bn (+40.7% YoY). The IP segment maintained positive new sales momentum and handed over 50 ha in Q3, mainly at Phong Dien IP, along with Thuan Thanh, Yen My and Phu Ha IPs. Revenue declined QoQ due to lower average prices at Phong Dien IP.
- **Q3 gross margin** was 56.9%, improving from Q2 (43.2%) and the same period last year (39.6%), due to downward adjustments of investment costs upon finalization at certain projects.

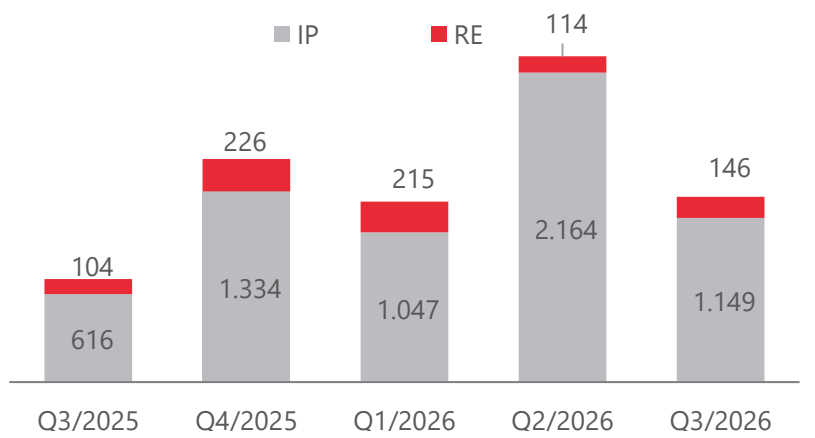

KEY HIGHLIGHTS

- **Industrial Parks:**
  - Broke ground on Hung Yen Industrial Park No. 1 on 16/10/2026 and preparing to break ground on Tay Pho Yen IP and Phu Ninh IP in Q4;
  - Accelerating progress at Tran Yen IP and effectively attracting many major international investors;
  - **Investment promotion**: Viglacera, in coordination with the Embassy of Vietnam in Korea and the Industrial Bank of Korea (IBK), organized a series of two investment promotion events in Seoul, attracting around 80 Korean business representatives.
- **Real Estate:** Viglacera and its partner continued sales and accelerated progress at the CT3 Kim Chung social housing project and social housing projects in industrial parks.

IP & RE (VND bn)

REVENUE STRUCTURE

3.3 FINANCIAL POSITION

ASSETS & CAPITAL

- **Total assets as of 30/09/2026** reached VND 83,379 bn (+13.3% YTD), driven mainly by non-current assets (+32.3% YTD), while current assets declined 3.2%. **Long-term assets** increased mainly due to long-term financial investments, including equity contributions/share purchases in infrastructure project companies (Gia Binh Airport) and real estate projects (two projects totaling 113 ha in Dong Nai), in line with the Group's long-term strategy.

- **Liabilities** increased 11.3%, mainly due to **borrowings** (+15.9%) financing business expansion and investments in infrastructure and real estate projects.

FINANCIAL RATIOS

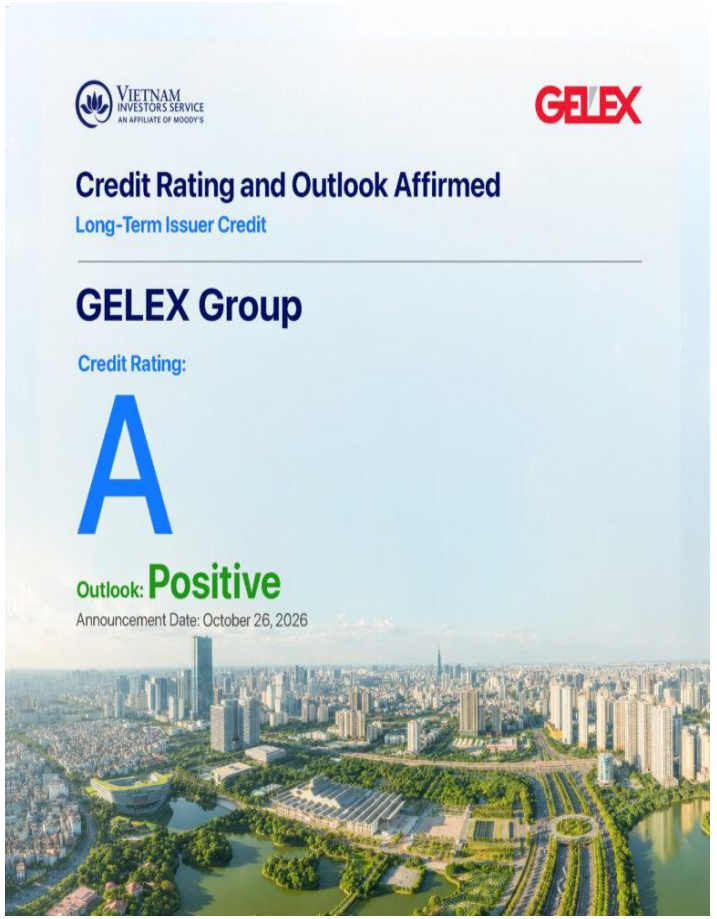

- **Leverage ratios** declined slightly compared with the beginning of the year and 30/06/2026 (Loans/Equity of 0.95x), remaining at a safe level during the investment expansion phase.

- **Debt service coverage ratio** (DSCR) as of 30/09/2026 was 2.64x; although lower than at the beginning of the year, it remains above the 1.5x standard.

3.4 NOTABLE ACTIVITIES

GELEX Turns 36, Moving Toward Its 2030 Goals

At the 36th anniversary celebration themed "Keeping the Trust" (07/2026), CEO Le Tuan Anh emphasized that GELEX's reputation is proven by its execution capability: setting the right strategy, organizing resources effectively and turning goals into concrete results. From an electrical equipment company, GELEX has grown into an investment group in essential industrial and infrastructure sectors, and continues to strengthen its governance and team toward international standards to become Vietnam's leading investment group by 2030.

GELEX Electric Turns 10 – Activating the Next Decade

GELEX Electric held its 10th anniversary celebration themed "A Decade of Connection – A Decade of Pioneering". Over 10 years, GELEX Electric has built an electrical equipment ecosystem with leading brands such as CADIVI, THIBIDI and EMIC, maturing in scale, governance and market position. According to Group Chairman Nguyen Van Tuan, GELEX Electric has consistently maintained stable cash flow and a healthy balance sheet, serving as a major cash generator for the Group across economic cycles; its first decade is the foundation for a new phase of development.

GELEX Infrastructure Announces New Mission – Vision – Core Values

On 10/7/2026, GELEX Infrastructure (GEL) held its Culture Day, officially announcing its Mission, Vision and Core Values for the new development phase, while opening a dialogue for all employees to co-create its Code of Cultural Conduct. This is an important milestone of the "Innovate – Break Through" Corporate Culture Project launched in May 2026. Since August, GEL has continued to roll out a series of "culture in action" activities to embed shared values into daily work.

3.4 NOTABLE ACTIVITIES

Future Makers 2026 with NUS Business School

The Future Makers 2026 leadership development program (07/2026), themed "Executive Leadership – Leading through Influence", brought together nearly 50 senior leaders from across the Group. Tailor-made for GELEX by experts from NUS Business School (Singapore), the program focused on discussing and solving real-world cases: talent management and development, succession building, leading change and decision-making in a volatile environment – a foundation for the 2030 goals.

GELEX Managers 2026 Launched for Middle Managers

On 5/9, GELEX launched the GELEX Managers 2026 – Leading to Impact program for 30 managers and high-potential staff from the Group, GELEX Electric and GELEX Infrastructure. According to CEO Le Tuan Anh, realizing the 2030 goals requires three pieces: strategy, resources and execution capability – with execution coming from the management team, especially middle managers. The program helps participants define clear objectives and priorities, and organize work with clear owners, clear tasks and clear accountability.

GELEX Supports Disadvantaged Students in the New School Year

On the occasion of the new school year, GELEX and its member companies continued their education support activities. VIWASUPCO donated smart interactive displays and air conditioners to Binh Minh Primary School (Hanoi), which provides inclusive education for students with intellectual disabilities. GELEX donated 60 computers to Nguyen Khac Vien High School (Ha Tinh), giving students better access to technology and digital skills. These activities reflect GELEX's long-term commitment to the community.

3.4 NOTABLE ACTIVITIES

Top 50 Best Listed Companies for the Second Year Running

Forbes Vietnam once again named GELEX in its Top 50 Best Listed Companies in Vietnam 2026, for the second consecutive year. The list is based on the 2021–2025 performance of companies listed on HoSE and HNX, considering growth, industry position, earnings quality, governance capability and development prospects. In 2021–2025, GELEX's consolidated net revenue grew at an average of 8.4% per year and profit before tax at 22.5% per year; 2025 profit was the highest in the Group's history.

Top 100 Largest Private Taxpayers in Vietnam 2026

With nearly VND 2,900 bn paid to the State budget in 2025, GELEX ranked 21st in PRIVATE 100 – Top 100 largest private corporate taxpayers in Vietnam, published by CafeF within the VNTAX system. In 2026, the 100 listed companies contributed a total of VND 390,700 bn, equivalent to 14.7% of total national budget revenue in 2025. The result reflects the scale of operations and economic value generated by the GELEX system, as well as its commitment to fully meeting its obligations to the State.

Ly Thai To Headquarters Earns LEED Gold Certification

The 27-29 Ly Thai To building (Hanoi), GELEX Group's headquarters, was awarded LEED Gold certification by the U.S. Green Building Council (USGBC) under LEED v4 BD+C: Core and Shell. The result recognizes design and construction efforts toward energy efficiency and sustainable materials. Previously, GELEX Tower (52 Le Dai Hanh) achieved LEED Platinum v4.1 certification for operating buildings – affirming the Group's commitment to sustainable commercial real estate.

04

OUTLOOK Q4/2026

Q4/2026 OUTLOOK

Overall Outlook

Business results for **Q3/2026** reflected positive performance across GELEX's core business segments, while also marking a phase of scale expansion under its long-term growth strategy, with financial expenses increasing due to higher investment.

Entering Q4/2026, GELEX's core business outlook continues to be supported by the following key drivers:

World Economy

World economy: (i) **AI investment** and technology are driving investment in data centers, semiconductors, digital infrastructure and power demand; (ii) manufacturing and trade continue to support growth in economies with stable domestic and export demand; (iii) **Supply chain shifts** create opportunities to attract **FDI** and expand production capacity in markets such as Vietnam.

Drivers in Vietnam

In Vietnam: (i) **Public investment**: accelerated year-end disbursement supporting transport, energy and urban infrastructure; (ii) **FDI and industrial production**: realized investment inflows and production expansion demand support the outlook for industrial parks, electrical equipment and logistics; (iii) **Consumption and domestic demand**: trade, services and year-end shopping demand support growth; (iv) **Growth-supportive policies**: fiscal and credit management and the removal of investment bottlenecks remain important supporting factors.

Risks to Monitor

Risks: (i) Prolonged **geopolitical** tensions, energy supply disruptions and rising raw material prices, putting pressure on inflation and production costs; (ii) uncertainty over **tariffs**, global trade and demand in major markets affecting exports, production and FDI attraction; (iii) volatility in **exchange rates, interest rates** and financial conditions, which may raise the cost of capital; (iv) slower-than-expected **public investment disbursement** and domestic project implementation, which may limit growth momentum.

Q4/2026 OUTLOOK

Business Segment Outlook

Electrical Equipment

Growth momentum is expected to continue, supported by investment demand for **power infrastructure**, transport infrastructure, industrial park & real estate projects, and rising year-end household construction and renovation demand. Subsidiaries are stepping up domestic market expansion and developing **export markets**, thereby strengthening market share and growth potential.

Construction Materials

Operating performance is improving following **restructuring**, as the domestic market recovers and materials demand is supported by public investment, infrastructure development and a recovery in construction activity. Exports continue to be strengthened in strategic markets such as **the US and EU**, alongside expansion into new markets. However, **energy**, raw material and logistics costs remain key factors to monitor.

Industrial Parks & Real Estate:

Industrial Parks: overall market conditions and sales activities at Viglacera were positive in 9M, laying the foundation for exceeding the 2026 handover target of **150 ha**. In Q4, construction and sales activities will continue to be accelerated as planned at **Doc Da Trang IP**, Tran Yen, Song Cong 2 and Thuan Thanh and groundbreaking of **Hung Yen IP No. 1**, Tran Yen IP and Phu Ninh IP.

Real Estate: social housing and worker housing projects of **VIGLACERA** continue to be built on schedule with accelerated sales and are expected to contribute positively to **business results** in the coming quarters.

Utilities

Song Da Clean Water Plant continues to operate stably and increase output from Phase 2, with current output at **over 75%** of capacity, and capacity will be further expanded to the maximum in **2027**. However, profitability will be affected as the Phase 2 investment items were completed in Q2, giving rise to **depreciation expenses**.
